Subject: RE: James Chelmowski vs. AT&T - AAA Case No. 51 434 263 13 -- 12-04-13 Conference Call

Heather Mr. De Stefano, Mr Green and I met on the conference call. By agreement of the parties:

- 1) A document production by Respondent, including items requested by Claimant in its Claimant's Rule 21 First Request for Documents as limited by the attorney/client privilege, no later than 5:00 pm Chicago time January 15, 2014.
- 2) Both parties will exchange any documents they plan to use as exhibits at the hearing no later than 5:00 pm Chicago time January 15, 2014.
- 3) Hearing currently set for December 17, 2013 is continued to Friday February 28, 2014 at 9:30 am in Chicago office of AAA.

Please make appropriate arrangements with AAA Chicago office regarding the change in Hearing date. Please let me know if you wish me to produce a more formal document than this email regarding our phone meeting on Claimants Motion to Compel and Respondent's objections sent December 2, 2013 via email.

Please let me know if there is anything else you need.

Best regards,

Celeste

AMERICAN ARBITRATION ASSOCIATION

JAMES CHELMOWSKI v. AT&T
CASE # 51 434 263 13

CLAIMANT'S RULE 21 FIRST REQUEST FOR DOCUMENTS

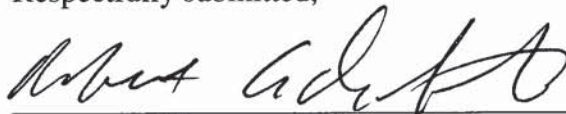

NOW COMES the Claimant JAMES CHELMOWSKI and pursuant to Arbitration Rules and Procedures of the American Arbitration Association Rule 21 exchange of information the Claimant James Chelmowski requests that AT&T produce on or before November 29, 2013 the following:

1. Produce any and all documents internal and external and all emails with regards to Jim Chelmowski or James Chelmowski (Claimant) or any of his phone numbers from 12/01/2009 to the present. Included in this request is over 3000 internal emails with time and date stamps. This also includes but is not limited to all emails with the Claimant's name with derivation or abbreviation, his phone numbers or anything about him in email message content, attachments or any metadata from 2009 to the present.
2. Produce any and all documents internal and external, emails, working papers, logs, submitted to others, filings for the porting of 847-768-0000 started on 12/10/2009 and 847-768-0400 started in 12/10/2009 plus 3/18/2011 porting of all 4 numbers 847-768-0400, 847-768-0000, 847-744-5626 and 847-917-2384. This should include all communication to and from other companies or carriers, including but not limited to FCC, Neustar, North American Numbering Council (NANC), Number Portability Administration Center Service Management System (NPAC SMS), National Exchange Carrier Association (NECA), other government agencies and other companies regarding porting of all these numbers noted in this request (2).
3. Produce any and all documents from AT&T internal investigation regarding the inability to port service for Claimant, the FCC Informal Complaint 11-C00292341 of Claimant purportedly addressed by AT&T and Margaret Trammell, AT&T Manager-FCC Appeals Bureau - from March 24, 2011 date filing of the FCC informal complaint to the present include all documents, work papers, internal and external correspondence, emails, and any other memorialization of the Claimant's file in any format since 2009 to the present.
4. Produce any and all documents of AT&T internal investigation regarding the inability to port Claimant's service, Illinois Attorney General Complaint 2011-CONSC-00304479 by Claimant purportedly addressed by AT&T and Sherri Baker, AT&T Office of the President of AT&T - from April 9, 2011 date of filing the complaint to the present include all documents, work papers, internal and external correspondence, emails, and any other memorialization of the Claimant's file in any format since 2009 to the present.
5. Produce any and all communication with collection entities and/or collection agencies regarding Claimant since 2009 to the present. All communications with any

entity or individual about James Chelmowski credit and payment history from 2003 to the present.

6. Produce any and all AT&T cell phone bills for Claimant's accounts from 01/04/2011 to the present.
7. Produce any and all AT&T policies and/or procedures for certified mail receipt in the AT&T legal department or other departments and any certified mail log that would verified the 2 letters were received from Claimant or not received as AT&T claims on April 8, 2013 and March 1, 2013.
8. Produce any and all AT&T policies and procedures, porting manual and instructions given to AT&T employees for proper number porting from AT&T to another service provider with all steps and codes since 2009 to the present.
9. Produce proof of AT&T Counterclaim filing on or before 5-1-13, any certified mail receipt and/or proof of service on Claimant for said filing and the order by the Arbitrator authorizing said filing.
10. Produce all correspondence, emails and communications memorialized in any form addressing the Claimant's porting claims and other claims against AT&T since December 1, 2009 to the present including communications from or to Stephanie Maidlow, Jan Mendal, Ann Mittelstead, Jim Camberis, Ralph del Vega, John Stephens, Sherri Baker, Margaret Trammel, Paul Bland Jr., Deepak Gupta, any representatives from Public Justice, Timothy McPike and/or any representatives from the Illinois Attorney General's Office, FCC Representatives and XO Porting Manager.
11. Produce any and all specific internal email communications from, to or about Claimant from December 10, 2009 to the present including but not limited to 1,365 opened and/or reviewed by Randall Stephenson, Chairman, Chief Executive Officer and President, 974 emails opened and/or reviewed by John Stanky, President and Chief Executive Officer AT&T Business Solutions, 705 emails opened and/or reviewed by Ralph del Vega, President and Chief Executive Officer AT&T Mobility, 470 emails opened and/or reviewed by Wayne Watts, Senior Executive Vice President and General Counsel, 481 emails opened and/or reviewed by Brooks McCorkle, Senior Vice President Investor Relations and any other AT&T employees opening and/or reviewing any emails by Claimant during that time period.

Respectfully submitted,

JAMES CHELMOWSKI v. AT&T

CASE # 51 434 263 13

MOTION TO COMPEL

NOW COMES the Claimant JAMES CHELMOWSKI by and through his attorneys ROBERT A. DESTEFANO and ASSOCIATES, P.C., and in his Motion to Compel against AT&T pursuant to Federal Rules of Procedure 26 and 37, Illinois Supreme Court Rules 201, 214 and 219 and AAA Rule 21 Exchange of Information and states as follows:

1. That Claimant has previously requested a discovery disclosure schedule stating “A schedule for the exchange of information between the parties needs to be entered pursuant to AAA Commercial Arbitration Rule 21” on September 27, 2013. (See Exhibit A).

2. That Respondent filed an answer on October 18, 2013.

3. That Claimant’s counsel thereafter left a message with Heather Pope regarding the exchange of information pursuant to AAA Rule 21.

4. That thereafter on November 18, 2013 Claimant forwarded Rule 21 First Request For Documents to AT&T. (See Exhibit B)

5. That no response has been forwarded by AT&T by November 29, 2013.

6. That AT&T possesses numerous documents relevant and material and information relating to issues in controversy in this matter that it can easily retrieve and forward.

7. That the needs for this production outweighs the minimal burden, if any on AT&T and the Claimant is prejudiced by AT&T’s lack of response to the Rule 21

First Request For Documents thereby inhibiting his ability to present his case in any Hearing as well as presenting his trial exhibits, documents and witness lists.

8. That Rule 21 states:

- (a) At the request of any party or at the discretion of the arbitrator, consistent with the expedited nature of arbitration, the arbitrator may direct
 - (i) the production of documents and other information, and
 - (ii) the identification of any witness to be called
- (b) At least five business days prior to the hearing, the parties shall exchange copies of all exhibits they intend to submit at the hearing.
- (c) The arbitrator is authorized to resolve any disputes concerning the exchange of information.

9. That it is necessary for AT&T to fully respond to the Rule 21 First

Request For Documents to enable the Claimant to fully present his claims.

10. The Principle 13 of the AAA Consumer Due Process Protocol, Access to Information states:

“No party should ever be denied the right to a fundamentally-fair process due to an inability to obtain information material to a dispute. Consumer ADR agreements which provide for binding arbitration should establish procedures for arbitrator-supervised exchange of information prior to arbitration, bearing in mind the expedited nature of arbitration”

11. That given current technology it would take minimal time for AT&T to comply with the production requests because it takes AT&T seconds with their software and technology to obtain documents. For example, pursuant to AT&T’s advertising detailing the SEG Message Archiving product and other AT&T email products the advertisement states:

“with the Messaging Archiving option, you can easy access one message or thousands of messages – in seconds, using either simple or advance search criteria including user, date range, metadata, message content and

even attachment content.” ..”retention periods..to ten years”. (See Group Exhibit C).

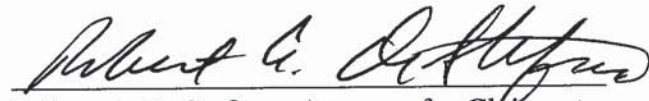

12. The time period in question is less than 10 years.

13. That it is necessary that AT&T’s actions in not responding to the Rule 21 First Request For Documents be redressed by sanctions including barring AT&T from testifying and other pleadings of AT&T be stricken as well as other appropriate sanctions.

WHEREFORE, the Claimant JAMES CHELMOWSKI respectfully requests and prays that an order be entered in his favor and against AT&T as follows:

- A. That AT&T answer the Rule 21 First Request For Documents instanter;
- B. That AT&T shall be barred, upon its failure to fully comply with Claimant’s request from testifying at hearing;
- C. That this Arbitrator enter such sanctions against AT&T and in addition to the abovementioned as it deems appropriate including attorneys’ fees as it relates to this Motion to Compel;
- D. And for such other and further equitable relief as this court deems fit.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "Robert A. DeStefano", written in black ink.

Cc: 7hammond@jmls.edu, TG6738@att.com

AMERICAN ARBITRATION ASSOCIATION

Basis of Mr. Chelmowski's claims:

1) Breach of Contract-The claimant was a customer of AT&T from 1994 to part of 2011. AT&T failed to port the 847-768-0400 phone number of the claimant through today's date. AT&T did not reactivate the claimant's voicemail upon his request nor did it provide him access to his clients and prospects voicemail messages. AT&T did not pay the \$375 arbitration fee to the claimant through today's date. AT&T intentionally neglected to arbitrate all disputes and claims per arbitration clause. AT&T did not provide the appropriate arbitration forms and information on its website in contradiction of its purported consumer friendly arbitration clause. AT&T overall did not act in good faith and did not deal fairly with the claimant in every aspect of the contract. The claimant performed under the contract in good faith while attempting port all of his telephone numbers to another provider in spite of the resistance and egregious conduct of AT&T employees.

2) Conversion- AT&T converted the phone number 847-768-0400 owned by the claimant since 1998 and to this date it has not allowed that number to be ported when he requested it in 2011 further violating federal law 75 FR 35315, June 22, 2010 (47 C.F.R. 52.35(a)).

3) Fraud- AT&T intentionally provided false and misleading explanations for its inability to port the claimant's phone numbers including the 847-768-0400 number as well as providing false and misleading responses to camouflage the violation of federal law and breaches of contract with the claimant. AT&T continued to provide inaccurate credit information about the claimant and purposely billed and/or overbilled the claimant to buttress its manufactured and unfounded defense and to further its attempts to intimidate the claimant to settle without any consideration for the pecuniary, physical and psychological damages it heaped upon Mr. Chelmowski.

4) Intentional Infliction of Emotional Distress-AT&T is a public utility that through its employees lied to the claimant and was grossly discourteous to him while he asserted his ownership rights to his phone numbers. During his attempts to receive and retrieve his time sensitive customer voice messages, his attempts to port and to transfer his phone numbers and service to another company AT&T's disingenuous conduct continued. Executives and supervisors opened the claimant's email requests numerous times as claimant attempted to service his current mortgage customers and/or cultivate new client business without his phone and/or functioning voicemail, however AT&T's employees intentionally provided no substantive response that did not advance their contractual obligations or their duty under federal law. AT&T had knowledge of the claimant's susceptibility knowing that he had been hospitalized on March 3, 2011 for chest pains during the time he discovered that AT&T was purposefully inhibiting the lawful transition of his telephone numbers to another phone company and further depriving him of his client's voicemail messages on deals that were pending , about to be consummated and/or new client contacts. There are at least 3000 internal emails about the claimant and his requests to port his numbers and receive his voicemails

that were digested by AT&T top executives starting from 2/27/11 including Randall Stephenson, Chairman, Chief Executive Officer and Pres., John Stanky President and Chief Executive Officer, AT&T Business Solutions, Ralph Dela Vega President and Chief Executive Officer AT&T Mobility, Wayne Watts Senior Executive Vice President and General Counsel, and Brooks McCorkle Senior Vice President Investor Relations as well as other AT&T employees, but this constant review of the claimants request's did not yield conformance with the contract or with federal law and further illustrates the intentional wrongful conduct strategy employed by AT&T to block the transfer of the claimant's property and deny his receipt of timely voicemail messages and/or a total eradication of these client communications.

5) Violation of 75 FR 35315 (2010) specifically Section 52.35 Porting Intervals (47 C.F.R. 52.35 (a)).- AT&T failed to Port telephone numbers of the claimant within one business day and still has not ported the 847-768-4000 number. Claimant believes in 2011 there were at least 7 FCC violations on his porting requests.

Claimant Chelmowski has been in the mortgage business for approximately 20 years and his business is based primarily on service and referrals. That the culpable actions of AT&T cost the claimant business and income via rate locks expiring, massive extensions of loans thereby decreasing profits, refinance transaction lost on prior clients and applicants lost to the competition because calls and/or voicemails were not received at all or not received in a timely manner. Given the historical production of the claimant damages exceed \$75,000 in lost profit, past and future and wages, medical bills, psychiatric bills, attorney fees, costs, interest and punitive damages for the intentional conduct of this mega monopolistic utility company.

A schedule for the exchange of information between the parties needs to be entered pursuant to AAA Commercial Arbitration Rule 21.

Respectfully submitted,

JAMES CHELMOWSKI v. AT&T
CASE # 51 434 263 13

CLAIMANT'S RULE 21 FIRST REQUEST FOR DOCUMENTS

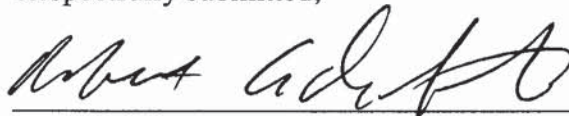

NOW COMES the Claimant JAMES CHELMOWSKI and pursuant to Arbitration Rules and Procedures of the American Arbitration Association Rule 21 exchange of information the Claimant James Chelmowski requests that AT&T produce on or before November 29, 2013 the following:

1. Produce any and all documents internal and external and all emails with regards to Jim Chelmowski or James Chelmowski (Claimant) or any of his phone numbers from 12/01/2009 to the present. Included in this request is over 3000 internal emails with time and date stamps. This also includes but is not limited to all emails with the Claimant's name with derivation or abbreviation, his phone numbers or anything about him in email message content, attachments or any metadata from 2009 to the present.
2. Produce any and all documents internal and external, emails, working papers, logs, submitted to others, filings for the porting of 847-768-0000 started on 12/10/2009 and 847-768-0400 started in 12/10/2009 plus 3/18/2011 porting of all 4 numbers 847-768-0400, 847-768-0000, 847-744-5626 and 847-917-2384. This should include all communication to and from other companies or carriers, including but not limited to FCC, Neustar, North American Numbering Council (NANC), Number Portability Administration Center Service Management System (NPAC SMS), National Exchange Carrier Association (NECA), other government agencies and other companies regarding porting of all these numbers noted in this request (2).
3. Produce any and all documents from AT&T internal investigation regarding the inability to port service for Claimant, the FCC Informal Complaint 11-C00292341 of Claimant purportedly addressed by AT&T and Margaret Trammell, AT&T Manager-FCC Appeals Bureau - from March 24, 2011 date filing of the FCC informal complaint to the present include all documents, work papers, internal and external correspondence, emails, and any other memorialization of the Claimant's file in any format since 2009 to the present.
4. Produce any and all documents of AT&T internal investigation regarding the inability to port Claimant's service, Illinois Attorney General Complaint 2011-CONSC-00304479 by Claimant purportedly addressed by AT&T and Sherri Baker, AT&T Office of the President of AT&T - from April 9, 2011 date of filing the complaint to the present include all documents, work papers, internal and external correspondence, emails, and any other memorialization of the Claimant's file in any format since 2009 to the present.
5. Produce any and all communication with collection entities and/or collection agencies regarding Claimant since 2009 to the present. All communications with any

entity or individual about James Chelmowski credit and payment history from 2003 to the present.

6. Produce any and all AT&T cell phone bills for Claimant's accounts from 01/04/2011 to the present.
7. Produce any and all AT&T policies and/or procedures for certified mail receipt in the AT&T legal department or other departments and any certified mail log that would verified the 2 letters were received from Claimant or not received as AT&T claims on April 8, 2013 and March 1, 2013.
8. Produce any and all AT&T policies and procedures, porting manual and instructions given to AT&T employees for proper number porting from AT&T to another service provider with all steps and codes since 2009 to the present.
9. Produce proof of AT&T Counterclaim filing on or before 5-1-13, any certified mail receipt and/or proof of service on Claimant for said filing and the order by the Arbitrator authorizing said filing.
10. Produce all correspondence, emails and communications memorialized in any form addressing the Claimant's porting claims and other claims against AT&T since December 1, 2009 to the present including communications from or to Stephanie Maidlow, Jan Mendal, Ann Mittelstead, Jim Camberis, Ralph del Vega, John Stephens, Sherri Baker, Margaret Trammel, Paul Bland Jr., Deepak Gupta, any representatives from Public Justice, Timothy McPike and/or any representatives from the Illinois Attorney General's Office, FCC Representatives and XO Porting Manager.
11. Produce any and all specific internal email communications from, to or about Claimant from December 10, 2009 to the present including but not limited to 1,365 opened and/or reviewed by Randall Stephenson, Chairman, Chief Executive Officer and President, 974 emails opened and/or reviewed by John Stanky, President and Chief Executive Officer AT&T Business Solutions, 705 emails opened and/or reviewed by Ralph del Vega, President and Chief Executive Officer AT&T Mobility, 470 emails opened and/or reviewed by Wayne Watts, Senior Executive Vice President and General Counsel, 481 emails opened and/or reviewed by Brooks McCorkle, Senior Vice President Investor Relations and any other AT&T employees opening and/or reviewing any emails by Claimant during that time period.

Product Brief

AT&T Secure E-Mail Gateway – security as a service

Managing the thousands of e-mail messages that pass through a typical organization's servers every day is an enormous task. Dedicating in-house IT resources to ensure security, availability, and compliance for vast amounts of e-mail traffic is one approach – but doing so diverts these valuable resources from strategic work that advances business goals. Thankfully, there is a better way. With AT&T Secure E-Mail Gateway (SEG), you can:

- Help protect your company against spam, viruses, worms, phishing scams, and other malware threats before they ever reach your network
- Depend on a 60 calendar day rolling e-mail storage for web-based e-mail access during planned and unplanned server outages
- Monitor and act on all outbound e-mail containing content that violates your data loss prevention policies
- Easily utilize e-mail encryption when needed without disruption to end-user workflow
- Economically and efficiently archive every e-mail message to meet document retention requirements

AT&T SEG helps you protect, access, and archive your e-mail with no hardware to buy, no software to install, no backup tapes to mount, and no maintenance to perform.

AT&T Secure E-Mail Gateway Service Overview

AT&T SEG service is a network-based solution that blocks spam, viruses, and other inbound e-mail malware threats before they reach your

network. Just as important as blocking inbound attacks, SEG also gives you the features you need to support outbound e-mail filtering to help protect your company against loss of sensitive information and potential legal liability. SEG can also provide message archiving with unlimited storage. And, in the event of unexpected e-mail downtime or disaster, SEG helps address your business continuity needs. AT&T SEG, utilizing technology by McAfee, integrates its e-mail protection capabilities and global threat intelligence into the AT&T Network Gateway nodes to deliver Security as a Service solutions. AT&T SEG is available in a choice of two inbound/outbound service levels (Advanced and Premium). Optional support for message archiving is also available.

AT&T Secure E-Mail Gateway – Advanced

AT&T SEG Advanced service offers far more than traditional spam prevention. It provides complete, multi-layered e-mail filtering protection using a combination of proven spam filters, leading antivirus engines, fraud protection, content filtering, and e-mail attack protection. Our easy-to-administer cloud-based service identifies, quarantines, blocks, and cleans suspect e-mail messages before they can enter or leave your network. This helps shield your network and critical messaging gateways from e-mail attacks, instantly blocking denial of service and other SMTP-based attacks, including directory harvest attacks, e-mail bombs, and channel flooding. If your own e-mail servers become unavailable, your end-users can access their incoming mail through an easy-to-use web interface enabling them to send and receive messages.

Benefits

- Rapid deployment
- No hardware or software to buy, maintain, manage or update
- No encryption certificates/keys to manage
- No up-front capital outlay
- No setup or upgrade fees
- Simple web-based administration and reporting
- 24x7x365 technical trouble support

Features

- In the cloud filtering to block threats before they reach your network
- Advanced spam and fraud protection
- Triple virus and worm scanning to block malware
- Web link scanning blocks messages with links to known malicious websites
- Outbound content scanning on keywords, attachments, regular expressions and and registered documents
- End-user transparent encryption
- Disaster recovery spooling and continuity
- Powerful e-discovery features to retrieve information quickly
- Full support for industry and regulatory compliance requirements
- Bundled Secure Network Gateway Service that provides simple billing with one contract, one bill and price discounts when purchasing more than one service

AT&T Secure E-Mail Gateway – Premium

AT&T SEG Premium service includes all of the same features as the Advanced service plus enhanced encryption features to help protect enterprises from liabilities associated with privacy and data security regulations such as The Health Insurance Portability and Accountability Act (HIPAA), Gramm-Leach-Bliley Act (GLBA), PCI Compliance, and Securities and Exchange Commission (SEC) rules. SEG Premium service provides a way to utilize e-mail encryption as part of your data loss prevention strategy (DLP). Encryption complexities are completely hidden from end users ensuring ease of use. Your IT Administrator uses a simple web-based administration console to configure encryption and DLP policies and view reports. Data is encrypted using industry-trusted standard PKI (Public Key Infrastructure) and S/MIME technologies for encryption and digital signatures, relying on standard X.509 certificates.

Optional Message Archiving

AT&T SEG Message Archiving option takes care of all your e-mail storage, management, and retrieval needs, and it supports your requirements without the need to manage backup media and onsite storage. Whether you need to recover a stored e-mail message in response to an e-discovery request, to demonstrate compliance, or simply as an accurate record of "who said what to whom," you want to produce the message as quickly as possible. With the Message Archiving option, you can easily access one message – or thousands of messages – in seconds, using either simple or advanced search criteria, including user, date range, metadata, message content, and even attachment content. The service supports unlimited storage with customer determined retention periods from 30 calendar days to 10 years. The Message Archiving option can be added to either SEG Advanced or Premium.

With AT&T Secure E-Mail Gateway you get the e-mail security features, and reliability you need, while leaving the filtering infrastructure and network management to us.

AT&T Secure Network Gateway

AT&T Secure Network Gateway service delivers state-of-the-art security features with proactive monitoring and management. We

AT&T Secure E-Mail Gateway

have conveniently packaged and simplified the purchasing, contracting and billing of AT&T Network-Based Firewall Service, AT&T Secure E-mail Gateway Service and

AT&T Web Security Service under one contract and one invoice providing an efficient and cost-effective way to meet your business security needs.

AT&T Launches Secure E-Mail Archiving

By Matt Villano, CRN

6:02 PM EST Wed. Apr. 07, 2004

Telecommunications giant AT&T Tuesday unveiled a managed e-mail archiving service designed to help enterprise customers store e-mail correspondence and more easily comply with industry and federal data retention regulations.

The service, appropriately titled AT&T E-Mail Archiving, was expected to be available to channel partners immediately.

Eric Shepcaro, vice president of AT&T's Emerging Services division, said the archiving service creates an online e-mail database that is easily retrieved by the user. It also supports single-instance store capabilities, retaining only one copy of a message or attachment on demand.

"As we continue to expand our storage portfolio, we are addressing a critical market need for an e-mail archiving solution," he said from the company's Bedminster, N.J. headquarters. "We are focused on providing customers with a managed option that gives them an alternative to doing it themselves."

Shepcaro said the AT&T archiving service is based on Centera technology from EMC Corp., Hopkinton, Mass., and the Enterprise Vault from KVS, Arlington Texas. The service also is supported by AT&T's integrated global enterprise management system, a predictive system that captures, consolidates, and correlates performance data across a customer's networks, servers and applications.

With AT&T E-Mail Archiving, as the volume of e-mail correspondence increases, the service removes and archives e-mail and attachments from the production environment, offloading the archival process to AT&T and optimizing a client's storage environment. AT&T then securely transmits e-mail data to one of 21 AT&T Internet data centers, indexes all messages passing through the mail environment, and stores the content in its original format.

Pricing for the service was not immediately available.

Shepcaro said the company plans to open 4 additional data centers before the end of the year, bringing its total number of data centers to 25.

AMERICAN ARBITRATION ASSOCIATION

JAMES CHELMOWSKI v. AT&T
CASE # 51 434 263 13

MOTION TO COMPEL AND FOR SANCTIONS

NOW COMES the Claimant JAMES CHELMOWSKI by and through his attorneys ROBERT A. DESTEFANO and ASSOCIATES, P.C., and in his Motion to Compel against AT&T pursuant to Federal Rules of Procedure 26 and 37, Illinois Supreme Court Rules 201, 214 and 219 and AAA Rule 21 Exchange of Information and states as follows:

1. That on November 29, 2013 Claimant's Motion to Compel was forwarded and on December 4, 2013 was heard by way of teleconference which yielded an agreement of the parties and email by Arbitrator Hammond as follows:

1) **A document production by Respondent, including items requested by Claimant in its Claimant's Rule 21 First Request for Documents as limited by the attorney/client privilege, no later than 5:00 pm Chicago time January 15, 2014.**

2) **Both parties will exchange any documents they plan to use as exhibits at the hearing no later than 5:00 pm Chicago time January 15, 2014.**

3) **Hearing currently set for December 17, 2013 is continued to Friday February 28, 2014 at 9:30 am in Chicago office of AAA.**

2. That after business hours on January 14, 2014 Claimant received the alleged production response from AT&T.

3. That the response is not coordinated with the request previously served, not numbered and is not in any way coordinated to reflect what production request is being answered including but not limited to the following:

- (a) There is no response from the 12 items requested and ordered to be answered by Arbitrator Hammond;
- (b) AT&T logs are full of white-out and cut and paste comments omitting critical comments;
- (c) The emails that AT&T provided were carefully pulled out of only two windows and were from 5-12-10 to 5-17-10 and omitted various emails after that time period;
- (d) Many documents are missing. In AT&T's response it is mentioned that Margaret Trammell wrote a letter to FCC but AT&T refuses to provide the 4-11-11 letter. Also a 3-8-11 letter from Stephanie Maidlow was not produced.

4. That a subpoena has been forwarded to Neustar who is not answering the subpoena upon information and belief because AT&T is not authorizing the release of this information relative to the Claimant's claim. (See Subpoena and email responses from Neustar attached hereto as Group Exhibit A).

5. That on January 16, 2014 Claimant received an email from AT&T stating it was not producing various people as witnesses. Communications with Ralph Delavega, Sherri Baker and Margaret Trammell and other witnesses referred to are pertinent, relevant and material to the Claimant's case and these witnesses ought to be produced. (See January 16, 2014 correspondence attached hereto as Exhibit B).

6. That AT&T possesses numerous documents relevant and material and information relating to issues in controversy in this matter that it can easily retrieve and forward.

7. That the needs for this production outweighs the minimal burden, if any on AT&T and the Claimant is prejudiced by AT&T's lack of response to the Rule 21 First Request For Documents thereby inhibiting his ability to present his case in any Hearing as well as presenting his trial exhibits, documents and witness lists.

8. That Rule 21 states:

- (a) At the request of any party or at the discretion of the arbitrator, consistent with the expedited nature of arbitration, the arbitrator may direct
 - (i) the production of documents and other information, and
 - (ii) the identification of any witness to be called
- (b) At least five business days prior to the hearing, the parties shall exchange copies of all exhibits they intend to submit at the hearing.
- (c) The arbitrator is authorized to resolve any disputes concerning the exchange of information.

9. That it is necessary for AT&T to fully respond to the Rule 21 First

Request For Documents to enable the Claimant to fully present his claims.

10. The Principle 13 of the AAA Consumer Due Process Protocol, Access to

Information states:

“No party should ever be denied the right to a fundamentally-fair process due to an inability to obtain information material to a dispute. Consumer ADR agreements which provide for binding arbitration should establish procedures for arbitrator-supervised exchange of information prior to arbitration, bearing in mind the expedited nature of arbitration”

11. That given current technology it would take minimal time for AT&T to comply with the production requests because it takes AT&T seconds with their software and technology to obtain documents. For example, pursuant to AT&T’s advertising detailing the SEG Message Archiving product and other AT&T email products the advertisement states:

“with the Messaging Archiving option, you can easy access one message or thousands of messages – in seconds, using either simple or advance search criteria including user, date range, metadata, message content and even attachment content.” ..”retention periods..to ten years”. (See Group Exhibit C).

12. The time period in question is less than 10 years.

13. That it is necessary that AT&T's actions in not responding to the Rule 21 First Request For Documents be redressed by sanctions including barring AT&T from testifying and other pleadings of AT&T be stricken as well as other appropriate sanctions.

14. That the Claimant is prejudiced by AT&T's lack of response to production and not producing key witnesses further increasing the expense of litigation and thereby inhibiting Claimant's ability to present his case in any hearing, pretrial or trial.

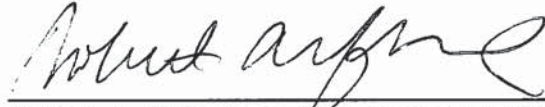

15. That it is necessary that AT&T's actions in not fully responding to production requests be redressed by sanctions including assessing previous daily monetary sanction from January 15, 2014 to the present, an order barring AT&T from testifying and other pleadings of AT&T be stricken as well as other further and appropriate sanctions.

WHEREFORE, the Claimant JAMES CHELMOWSKI respectfully requests and prays that an order be entered in his favor and against AT&T as follows:

- A. That AT&T answer the Rule 21 First Request For Documents instantler;
- B. That AT&T shall be barred from testifying at hearing, for its failure to fully comply with Claimant's request and this Arbitrator's order of December 4, 2013;
- C. That AT&T shall be further barred from presenting witnesses, documents and its responses stricken for its failure to fully comply with Claimant's request and this Arbitrator's order of December 4, 2013;
- D. That this Arbitrator enter such sanctions against AT&T and in addition to the abovementioned as it deems appropriate including attorneys' fees as it relates to this Motion to Compel and For Sanctions;

E. And for such other and further equitable relief as this court deems fit.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Robert A. DeStefano", written over a horizontal line.

Re: *James Chelmowski v. AT&T, American Arbitration Association*, Case No. 51
434 E 00263 13 hepo

Dear Mr. DeStefano,

I am in receipt of your e-mail dated January 15, 2014 attaching a witness list and exhibit list. Please be advised that AT&T intends to call Jim Camberis and Nate Camper as witnesses for this case. AT&T will not be producing Margaret Trammel or Sherri Baker as adverse witnesses. Ms. Trammel, a Manager in the Office of the President, was simply responsible for sending a response letter to the FCC. She did not have any personal dealings with Mr. Chelmowski regarding the issues set forth in his amended demand for arbitration and her response letter speaks for itself. Similarly, Ms. Sherri Baker, also from the Office of the President, was responsible for sending a response letter to the Illinois Attorney General's Office. She did not have any personal dealings with Mr. Chelmowski regarding the issues asserted in his amended demand for arbitration and her response letter speaks for itself. Mr. Chelmowski's dealings were with Mr. Jim Camberis and Nate Camper.

Further, AT&T will not be producing Ann Mittelstead, a senior paralegal, Stephanie Maidlow, an in-house attorney, or Jan Mendel, lead discovery manager. All three of these employees work in AT&T's Legal Department and their involvement regarding Mr. Chelmowski's claims is subject to the attorney client privilege.

Finally, AT&T will not be producing Ralph de la Vega, the CEO of AT&T Mobility LLC or John Stephens, the CFO of AT&T, Inc. as adverse witnesses in this case. Neither individual had any personal dealings with Mr. Chelmowski other than to be among the many recipients of his numerous harassing e-mails. Indeed, your attempt to call either as an adverse witness in this case is simply a further attempt on the part of you and your client to harass officers at AT&T.

Sincerely,

Thomas J. Green
General Attorney
AT&T Services, Inc.

AMERICAN ARBITRATION ASSOCIATION

JAMES CHELMOWSKI v. AT&T
CASE # 51 434 263 13

MOTION TO AMEND AND/OR CLARIFY

NOW COMES the Claimant JAMES CHELMOWSKI by and through his attorneys ROBERT A. DESTEFANO and ASSOCIATES, P.C., and in his Motion to Amend and/or Clarify states as follows:

1. That in the original claim James Chelmowski stated that AT&T continued

“to provide inaccurate credit information about the claimant and purposely billed and/or overbilled the claimant to buttress its manufactured and unfounded defense and to further its attempts to intimidate the claimant to settle without any consideration for the pecuniary, physical and psychological damages it heaped upon Mr. Chelmowski.”

Since the partial document production on January 14, 2014 and Claimant's production it is apparent that AT&T additionally has violated the Fair Credit Reporting Act 15 USCA Section 1681 et seq. as well as the Fair Debt Collection Practices Act 15 USCA Section 1692 et seq.

2. That the information that was furnished to the credit reporting agencies states that the claimant owed money to AT&T at specific amounts that was incorrect. That AT&T furnished this information to the credit reporting agencies stating that the claimant owed money for a time period of service when in fact there was no service that they could bill the Claimant for and AT&T knew or had reasonable cause to believe that, the information provided to the credit reporting agencies was inaccurate. AT&T knew or had reasonable cause to believe the information was inaccurate because James Chelmowski informed them that the amount was wrong and that service was not provided to him through the time frame reported to the credit reporting agencies. The creditor AT&T did not correct this information. AT&T by its actions as stated in this paragraph violated the

Fair Credit and Reporting Act therefore damaging the Claimant in an amount to be proved at trial.

3. AT&T made false and misleading statements in violation of 15 USCA Section 1692 et seq. (FDCPA).

4. Despite notice that the debt was disputed and the amount AT&T was trying to collect was incorrect, AT&T persisted in trying to collect the debt.

5. AT&T further made derogatory entries by way of forwarding information to the credit reporting agencies impacting the Claimant's consumer credit report thereby violating the Fair Credit and Reporting Act, 15 USCA Section 1681 et seq.

6. That the conduct of AT&T that caused actual damages to the Claimant, the Claimant seeks an award of statute damages pursuant to 15 USCA 1692 et seq.

WHEREFORE, the Claimant JAMES CHELMOWSKI respectfully requests and prays that an order be entered in his favor and against AT&T as follows:

- A. For an award of actual damages pursuant to USCA Section 1692k(a)(1) against AT&T and For Claimant;
- B. For an award of statutory damages pursuant to the proofs and 15 USCA Section 1692k(a)(2)(A) against AT&T and for Claimant;
- C. For an award of costs of litigation and reasonable attorney's fees pursuant to 15 USCA Section 1692k(a)(3) against AT&T and for Claimant;
- D. For such other and further relief as may be just and proper.

Respectfully submitted,

Robert A. DeStefano, Attorney for Claimant

AMERICAN ARBITRATION ASSOCIATION

Case No. 51 434 E 00263 13 hepo

James Chelmowski, Claimant

v.

AT&T Mobility LLC, Respondent,

Ms. Celeste Hammond, Esq.,

Attached please find AT&T Mobility LLC ("AT&T")'s Response to Claimant's Motion to Compel and for Sanctions:

- 1) AT&T complied with the Arbitrator's directive and produced the documents responsive to Claimant's Rule 21 First Request for Documents. The documents were delivered by Federal Express to Mr. DeStefano's office and were signed for by Robert DeStefano on January 15, 2014 at 11:33 a.m. The documents were all bates labeled "ATT-0001 through ATT-0241".
- 2) AT&T did not "white-out" or "cut and paste comments" on any of the documents which were all produced as received from AT&T's databases in the normal course of business without modification or alteration (other than, of course, being bates labeled).
- 3) AT&T has produced the documents it has in its possession which were sought by Claimant's First Request for Documents and which are not subject to the attorney client privilege and/or work product doctrine.
- 4) AT&T produced its September 22, 2011 response to the Federal Communications Commission to Mr. DeStefano as document bates labeled ATT-0077, even though the Claimant already had a copy of this document in his possession as he was copied on it when it was originally sent in 2011. Mr. Chelmowski has included in his production a response letter from Margaret Trammell dated April 11, 2011 as Section III - 0006. Ms. Trammell works for AT&T's FCC Appeal Bureau on behalf of the

landline company. I was unaware that the landline company had received and responded to an earlier FCC complaint from Mr. Chelmowski since his dispute relates to his wireless numbers. In any event, Mr. Chelmowski is already in possession of the document at issue as it was part of his production labeled Section III – 0006.

5) AT&T produced the letter to Mr. Chelmowski from Stephanie Maidlow, which is dated March 17, 2011, as documents bates labeled ATT-0104-ATT-0107. It was our belief and understanding that Stephanie Maidlow's previous version of the same letter which was dated March 8, 2011 (which is identical except for dates), was not delivered to Mr. Chelmowski and therefore we treated it as a draft of the March 17, 2011 letter. I attach a copy of that earlier letter and the tacking information from UPS indicating that it was not delivered to Mr. Chelmowski.

6) Prior to Mr. DeStefano's current motion, AT&T was not aware that he had sent a subpoena to Neustar and has not been involved in any way regarding Neustar's response or failure to respond to Mr. DeStefano's subpoena.

7) AT&T is under no obligation to produce Ralph de la Vega, the President and Chief Executive Officer of AT&T Mobility LLC, John Stephens, the Senior Executive Officer and Chief Financial Officer of AT&T, Inc., or the other out-of state witnesses identified by Mr. DeStefano in his "adverse witness" list. As indicated to Mr. DeStefano in my letter dated January 16, 2014, AT&T will be providing Jim Camberis and Nate Camper (the two individuals who actually dealt with Mr. Chelmowski and attempted to assist him with the issues which are the subject of this arbitration) as witnesses during the February 28, 2014 hearing. He will have an opportunity to cross-examine those witnesses at that time.

8) Accordingly, Claimant's Motion to Compel and for Sanctions should be denied.

Further attached is AT&T's response to Claimant's Motion to Amend and/or Clarify:

1) Commercial Arbitration Rule E-2 ("Changes of Claim or Counterclaim") provides that "After the arbitrator is appointed, however, no new or different claim or counterclaim may be submitted except with the arbitrator's consent." This case was initially filed on February 26, 2013. After being afforded (indeed required) successive opportunities to submit his amended claims, the Claimant did not submit his amended claims until September 27, 2013.

2) On February 4, 2014, within 24 days of the arbitration hearing, the Claimant is now seeking to add entirely new claims, his Fair Credit Reporting Act and Fair Debt Collection Practices Act claims, which are not based on any information that was not previously available to the Claimant when he first filed his claim nearly one year ago. Allowing the Claimant to once again amend his claim at this late stage in the proceedings is unwarranted, would be unjust and highly prejudicial to AT&T.

3) For the foregoing reasons, Claimant's Motion to Amend and/or Clarify should be denied.

Respectfully submitted,

Thomas J. Green

Ms. Hammond,

As explained in the cover letter that I sent with the documents to Mr. DeStefano – even though his client should already have the documents that I produced to him, because he reiterated his request for such documents during our last conference call, I have sent Mr. DeStefano copies of Mr. Chelmowski's bills from March 2010 through the present. The documents were bates labeled ATT-0242 – ATT-1771.

Attached please find additional support for the Claimant's pending motions. I just received via FedEx 1,530 pages from AT&T of what appears to be AT&T billings to the Claimant. I will need to review this with my Client as well. Thanks.

AT&T Secure E-Mail Gateway – security as a service

Managing the thousands of e-mail messages that pass through a typical organization's servers every day is an enormous task.

Dedicating in-house IT resources to ensure security, availability, and compliance for vast amounts of e-mail traffic is one approach – but doing so diverts these valuable resources from strategic work that advances business goals. Thankfully, there is a better way. With AT&T Secure E-Mail Gateway (SEG), you can:

- Help protect your company against spam, viruses, worms, phishing scams, and other malware threats before they ever reach your network
- Depend on a 60 calendar day rolling e-mail storage for web-based e-mail access during planned and unplanned server outages
- Monitor and act on all outbound e-mail containing content that violates your data loss prevention policies
- Easily utilize e-mail encryption when needed without disruption to end-user workflow
- Economically and efficiently archive every e-mail message to meet document retention requirements

AT&T SEG helps you protect, access, and archive your e-mail with no hardware to buy, no software to install, no backup tapes to mount, and no maintenance to perform.

AT&T Secure E-Mail Gateway Service Overview

AT&T SEG service is a network-based solution that blocks spam, viruses, and other inbound e-mail malware threats before they reach your

network. Just as important as blocking inbound attacks, SEG also gives you the features you need to support outbound e-mail filtering to **help protect your company against loss of sensitive information and potential legal liability**. SEG can also provide message archiving with unlimited storage. And, in the event of unexpected e-mail downtime or disaster, SEG helps address your business continuity needs. AT&T SEG, utilizing technology by McAfee, integrates its e-mail protection capabilities and global threat intelligence into the AT&T Network Gateway nodes to deliver Security as a Service solutions. AT&T SEG is available in a choice of two inbound/outbound service levels (Advanced and Premium). Optional support for message archiving is also available.

AT&T Secure E-Mail Gateway – Advanced

AT&T SEG Advanced service offers far more than traditional spam prevention. It provides complete, multi-layered e-mail filtering protection using a combination of proven spam filters, leading antivirus engines, fraud protection, content filtering, and e-mail attack protection. Our easy-to-administer cloud-based service identifies, quarantines, blocks, and cleans suspect e-mail messages before they can enter or leave your network. This helps shield your network and critical messaging gateways from e-mail attacks, instantly blocking denial of service and other SMTP-based attacks, including directory harvest attacks, e-mail bombs, and channel flooding. If your own e-mail servers become unavailable, your end-users can access their incoming mail through an easy-to-use web interface enabling them to send and receive messages.

Benefits

- Rapid deployment
- No hardware or software to buy, maintain, manage or update
- No encryption certificates/keys to manage
- No up-front capital outlay
- No setup or upgrade fees
- Simple web-based administration and reporting
- 24x7x365 technical trouble support

Features

- In the cloud filtering to block threats before they reach your network
- Advanced spam and fraud protection
- Triple virus and worm scanning to block malware
- Web link scanning blocks messages with links to known malicious websites
- Outbound content scanning on keywords, attachments, regular expressions and registered documents
- End-user transparent encryption
- Disaster recovery spooling and continuity
- **Powerful e-discovery features to retrieve information quickly**
- Full support for industry and regulatory compliance requirements
- Bundled Secure Network Gateway Service that provides simple billing with one contract, one bill and price discounts when purchasing more than one service

AT&T Secure E-Mail Gateway – Premium

AT&T SEG Premium service includes all of the same features as the Advanced service plus enhanced encryption features to help protect enterprises from liabilities associated with privacy and data security regulations such as The Health Insurance Portability and Accountability Act (HIPAA), Gramm-Leach-Bliley Act (GLBA), PCI Compliance, and Securities and Exchange Commission (SEC) rules. SEG Premium service provides a way to utilize e-mail encryption as part of your data loss prevention strategy (DLP). Encryption complexities are completely hidden from end users ensuring ease of use. Your IT Administrator uses a simple web-based administration console to configure encryption and DLP policies and view reports. Data is encrypted using industry-trusted standard PKI (Public Key Infrastructure) and S/MIME technologies for encryption and digital signatures, relying on standard X.509 certificates.

Optional Message Archiving

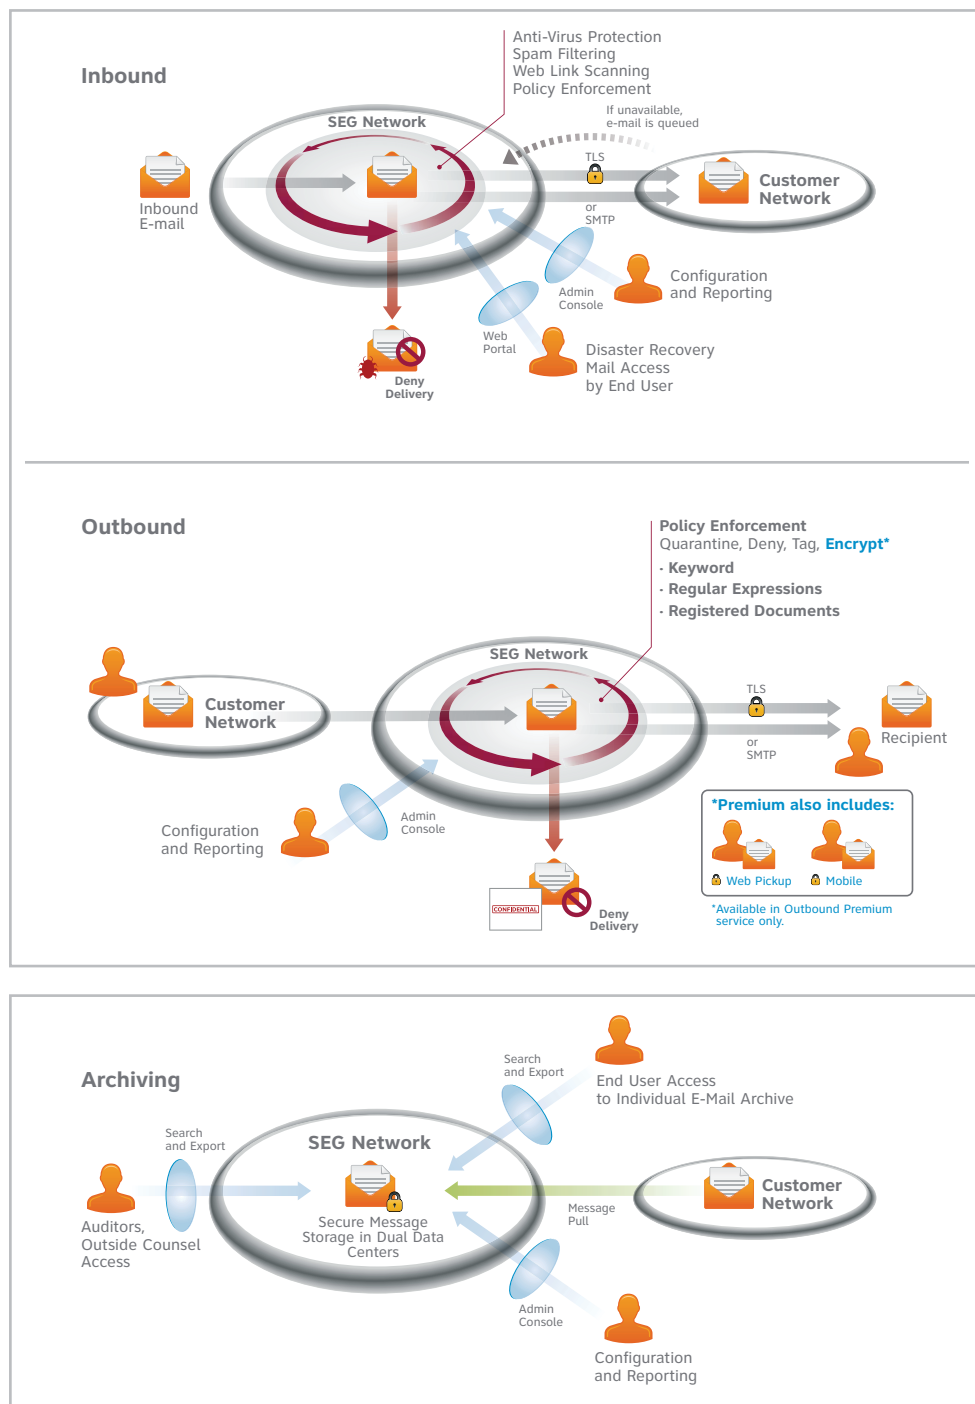

AT&T SEG Message Archiving option takes care of **all your e-mail storage, management, and retrieval needs**, and it supports your requirements without the need to manage backup media and onsite storage. Whether **you need to recover a stored e-mail message in response to an e-discovery request**, to demonstrate compliance, or simply as an accurate record of “who said what to whom,” you want **to produce the message as quickly as possible**. With the Message Archiving option, **you can easily access one message – or thousands of messages – in seconds**, using either **simple or advanced search** criteria, including user, date range, metadata, message content, and even attachment content. The service supports unlimited storage with customer determined retention periods from 30 calendar days to **10 years**. The Message Archiving option can be added to either SEG Advanced or Premium.

With AT&T Secure E-Mail Gateway you get the e-mail security features, and reliability you need, while leaving the filtering infrastructure and network management to us.

AT&T Secure Network Gateway

AT&T Secure Network Gateway service delivers state-of-the-art security features with proactive monitoring and management. We

AT&T Secure E-Mail Gateway

have conveniently packaged and simplified the purchasing, contracting and billing of AT&T Network-Based Firewall Service, AT&T Secure E-mail Gateway Service and

AT&T Web Security Service under one contract and one invoice providing an efficient and cost-effective way to meet your business security needs.

For more information about AT&T Managed Security Services, visit us at www.att.com/security, call us at 877 954-7771 or email us at mss@att.com.

For your records

----- Forwarded message -----

From: **GREEN, THOMAS J (Legal)** <TG6738@att.com>
Date: Thu, Feb 20, 2014 at 12:29 PM
Subject: RE: Chelmowski
To: "Hammond, Celeste" <7hammond@jmls.edu>
Cc: Heather Pope <PopeH@adr.org>, Bob DeStefano <bdestefano@rdestefanolaw.com>

Ms. Hammond,

As explained in the cover letter that I sent with the documents to Mr. DeStefano – even though his client should already have the documents that I produced to him, because he reiterated his request for such documents during our last conference call, I have sent Mr. DeStefano copies of Mr. Chelmowski's bills from March 2010 through the present. The documents were bates labeled ATT-0242 – ATT-1771.

Attached please find additional support for the Claimant's pending motions. I just received via FedEx 1,530 pages from AT&T of what appears to be AT&T billings to the Claimant. I will need to review this with my Client as well. Thanks.

American Arbitration Association

James Chelmowski and AT & T

Case # 51 434 263 13

Consumer Case

ORDER

Pursuant to the Consumer Arbitration Rules of the American Arbitration Association (AAA), Claimant submitted Motions 1) to Compel production of documents by Respondent 2) to Compel Respondent to produce certain witnesses 3) to provide Sanctions against Respondent including monetary sanctions, barring Respondent from testifying and striking Respondent's pleadings and 4) to Amend and/or Clarify its Claim.

The arbitrator CELESTE M HAMMOND having met with attorneys for the parties on February 12, 2014 and March 13, 2014 by telephone conference to consider Claimant's Motions and Respondent's response to those Motions and having considered both the written and oral testimony, **ORDERS** as follows on Claimant's Motions:

- 1) Deny Claimant's Motion to Compel.
- 2) Deny Claimant's Motion to compel certain witness EXCEPT to the extent the parties agreed to provide Claimant's attorney with the last known contact information about Troy Rudstrom whose employment with Respondent ended.
- 3) Deny entirely Claimant's Motion regarding imposing sanctions against Respondent.

- 4) Deny Claimant's Motion to Amend and/or Clarify its Claim to add relief under the federal Fair Credit Reporting Act, 15 USCA Section 1681 et seq. and under the federal Fair Debt Collection Practices Act, 15 USCA Section 1692 et seq.

This matter is set for Hearing on Thursday May 29, 2014 at 9:30 a.m. (CDT) at AAA Chicago Illinois office.

Dated: March 24, 2015

OOP Escalation		I spoke to Mr. Chelmowski this morning. He started the conversation asking about when I received his information. I advised him that someone from my office contacted him on Friday and he would not let them assist and ended the call. He denied that it happened. He then demanded that his service be fixed and his VM retrieved. I advised him that his number ending in 0000 never had VM and that the VM he was referring to resided on 847 744 5626 and that would not be affected. He then went on screaming and

OOP Escalation		I called Mr. Chelmowski back and explained to him that according to AT&T records no implication of deactivation of fast forward unit in billing system. I offered a \$25 courtesy credit. He declined to accept credit. I advised of option to reactivate fast forward unit or can utilize call forwarding feature and since other number is wireless number, he will not be charged. Mr. Chelmowski became very irate and stated that he wanted to cash check that is in business name at wireless store for cash. Mr. Chelmows

System Text:		UserText:		
OOP Escalation		OOP received a call from Mr. Chelmowski upset that his number 847-768-0000 was not being forwarded to 847-744-5626. He believes that AT&T remotely deactivated the call forwarding feature from his fast forward unit at home and he states that he has lost business due to it. Mr. Chelmowski would like to be compensated and he would also like AT&T to cash \$305 check at store he received from landline that he has been unable to cash due to check being in business name and not his personal name. To resolve call f
